# INDUCTION WARMER LINE

# INDUCTION - WARMING

Our Induction Warmers have set the standard in professional kitchens & buffets worldwide for nearly two decades.

Built for durability and ease of function, our Warmer Line is known for its efficiency & reliability.

Thanks to directly heating the serving dish, our warmers maintain temperature without the need for other equipment, making service quick & easy.

pin plug

Warmer

## INVISIBLE WARMER

- Under-counter warmers require nothing on the counter at all
- Create a seamless, premium aesthetic for your buffet
- Easily warms dishes through countertops up to 30mm thick
- Silicone trivets available to protect the counter if the pan is likely to run empty

The warmer offers 7 heat settings from 35° to 90°C, keeping food at the perfect temperature for any occasion. It also removes the need for chafing dishes, water baths, or double boilers

# I DROP-IN INDUCTION WARMERS

## MODEL BKPW

## 400W BUILT IN TOUCH SCREEN WARMER

LOTTE HOTEL SEOUL  
Section Chef  
LEE SEUNG YUP

A chef is cooking a variety of vegetables in a dark pan on an induction cooktop. The vegetables include green beans, yellow and red bell peppers, and green Brussels sprouts. The chef is using metal tongs to stir the ingredients. In the foreground, a wooden cutting board holds more fresh vegetables, including yellow and red bell peppers, green beans, and Brussels sprouts. The background shows a kitchen setting with a stainless steel countertop and another pan on the cooktop.

# INDUCTION COOKING LINE

# INDUCTION - COOKING

Precision, speed and efficiency ensures your chefs find it easy cooking on our induction cookers.

Perfect for live cooking stations, our cookers feature warming functions to allow flexibility on your counter.

Induction coils built in-house using the best available components guarantee the best possible cooking experience.
